Key Partners

Who are our Key Partners?
Who are our key suppliers?
Which Key Resources are we acquiring from partners?
Which Key Activities do partners perform?

Key Activities

What Key Activities do our Value Propositions require?
Our Distribution Channels?
Customer Relationships?
Revenue streams?

Key Resources

What Key Resources do our Value Propositions require?
Our Distribution Channels? Customer Relationships?
Revenue Streams?

Value Propositions

What value do we deliver to the customer?
Which one of our customer's problems are we helping to solve?
What bundles of products and services are we offering to each Customer Segment?
Which customer needs are we satisfying?

Customer Relationships

What type of relationship does each of our Customer Segments expect us to establish and maintain with them?
Which ones have we established?
How are they integrated with the rest of our business model?
How costly are they?

Channels

Through which Channels do our Customer Segments want to be reached?
How are we reaching them now?
How are our Channels integrated?
Which ones work best?
Which ones are most cost-efficient?
How are we integrating them with customer routines?

Customer Segments

For whom are we creating value?
Who are our most important customers?

Cost Structure

What are the most important costs inherent in our business model?
Which Key Resources are most expensive?
Which Key Activities are most expensive?

Revenue Streams

For what value are our customers really willing to pay?
For what do they currently pay?
How are they currently paying?
How would they prefer to pay?
How much does each Revenue Stream contribute to overall revenues?

Iteration:

Key Partners

Who are our Key Partners?
Who are our key suppliers?
Which Key Resources are we acquiring from partners?
Which Key Activities do partners perform?

6

Key Activities

What Key Activities do our Value Propositions require?
Our Distribution Channels?
Customer Relationships?
Revenue streams?

7

Key Resources

What Key Resources do our Value Propositions require?
Our Distribution Channels? Customer Relationships?
Revenue Streams?

5

Value Propositions

What value do we deliver to the customer?
Which one of our customer's problems are we helping to solve?
What bundles of products and services are we offering to each Customer Segment?
Which customer needs are we satisfying?

1

Customer Relationships

What type of relationship does each of our Customer Segments expect us to establish and maintain with them?
Which ones have we established?
How are they integrated with the rest of our business model?
How costly are they?

3

Channels

Through which Channels do our Customer Segments want to be reached?
How are we reaching them now?
How are our Channels integrated?
Which ones work best?
Which ones are most cost-efficient?
How are we integrating them with customer routines?

4

Customer Segments

For whom are we creating value?
Who are our most important customers?

2

Cost Structure

What are the most important costs inherent in our business model?
Which Key Resources are most expensive?
Which Key Activities are most expensive?

8

Revenue Streams

For what value are our customers really willing to pay?
For what do they currently pay?
How are they currently paying?
How would they prefer to pay?
How much does each Revenue Stream contribute to overall revenues?

ICE LOUVAIN

Key Partners

- Who are the key partners?
- Who can assist you?

Key suppliers, freelancers, experts, support, ambassadors

6

Key Activities

- What key activities does the right side of the BMC require?
- What are the tasks that will help your business to succeed ?

7

Key Resources

5

- What do you need to make your business model work?
- Do you need physical, financial, human, intellectual resources?

Value Propositions

- What *problem* are you solving for your client? What *need* are you satisfying?
- What *value* do you bring to your client?
- How are you *different* from your competitors?
- What is your *concept*?
- What is your product or service?

1

Customer Relationships

- What kind of relationship do you want to establish with them?
- What kind of customer experience do you want to offer?

3

Channels

- How will your value proposition reach your clients? (Communication & delivery channels)

4

Customer Segments

2

- Who are your most important customers?
- For whom are you creating value?

- B2B, B2C, B2B2C
- Characteristics
- Personas
- Customer habits, needs, desires, pains

Cost Structure

- What is your cost structure?
- How does the left side of the BMC influence your cost structure?
- Fixed or variable cost? Economy of scale ?

8

Revenue Streams

- Who pays and how?
- How will you generate income from each customer segment?
- What is your price strategy?
- What types of revenue streams will you have?

9

ICE LOUVAIN

Cost Structure + env, social, ethical costs

- **What is your cost structure?**
- **How does the left side of the BMC influence your cost structure?**
- **Fixed or variable cost? Economy of scale ?**
- **What negative impact do you create?**

Revenue Streams + benefits

- **Who pays and how?**
- **How will you generate income from each customer segment?**
- **What is your price strategy?**
- **What types of revenue streams will you have?**
- **What positive impact do you create?**

- Classical Model = financial costs (fixed & variable costs - salaries, equipment, technology, marketing, logistics)

-> Think “broader”!

- Costs = not only financial costs
- Social, environmental, ethical impact

- Examples :
  - Social costs : waiting time in the hospital emergency room
  - Environmental costs : waste, energy use
  - Ethical costs : data privacy, patient confidentiality

- Classical Model : Revenue Streams = financial income

-> Think “broader”!

- Revenue = not only “direct profit”
- Social, environmental positive impact

- Examples :
  - To Increase quality of live
  - To decrease the stress of the medical staff
  - To reduce long term healthcare costs for the system

ICE LOUVAIN

Key Partners

- Which external actors does Medispring depend on to operate its business model?
- Why are public healthcare digital systems key partners?
- Why are cooperators so important?

Key Activities

- What core activities are required to deliver the value proposition?
- Why are regulatory compliance and ecosystem integration critical activities?
- Why are marketing and sales also critical activities?

Key Resources

- What resources are essential to deliver the value proposition?
- Why are certifications and data security critical in healthcare software?
- How does the cooperative model become a strategic resource?

Value Propositions

- What solution does Medispring offer?
- What problem does Medispring solve for healthcare professionals?
- What are the unique values of Medispring?
- Why would a doctor choose this solution over another medical software?
- Is the value proposition only technological?
- How does the cooperative model create value for users?

Customer Relationships

- How does Medispring build trust with its users?
- Is support essential in medical software? Why?
- How does the cooperative model influence customer relationships?
- What happens if support fails during a consultation?

Channels

- How does Medispring reach its customers?
- How do potential users discover, evaluate and adopt the software?
- Which channels are controlled by the company, and which come from the ecosystem?
- How important is word-of-mouth in healthcare?
- Where would a doctor first hear about Medispring?
- Who influences the adoption of medical software in healthcare practices?

Customer Segments

- Who uses the software on a daily basis?
- Who are the main users and target customers?
- Are customers only individual doctors, or also healthcare organizations?
- Who can influence the choice of medical software?

Cost Structure

- What does Medispring need to invest in to operate its business model?
- Where does most of the cost go in a software company?
- Is there a social and/or an environmental negative impact ?

Revenue Streams

- How does Medispring generate revenue?
- Is the value created by Medispring only financial?
- Why would the company offer a free version of the software?
- Why might a practitioner choose to become a cooperative member?
- Is there a social and/or an environmental positive impact ?

Key Partnerships
- Public healthcare partners and infrastructure (INAMI, eHealth, Recip-e)
- Tech partners (iCure…)
- Cooperators/practitioner-owners
- Academic ecosystem
- professional healthcare partners (Federations)
- Financial partners

Key Activities
- Software dev & maintenance
- User support & onboarding
- Integration with national eHeath platform and regulatory compliance
- Promotion & sales
- Cooperative governance

Key Resources
- EMR platform (IP)
- Dev + support team
- Sales & marketing
- IT infrastructure
- Cooperative structure & capital
- Financial
- eHealth certifications and regulatory compliance

Value Proposition
- User friendly Electronic Medical Record (EMR) designed by practitioners for practitioners
- Administrative simplification and time saving
- Strong human support
- High level of data security and sovereignty
- Cooperative ownershipt
- INAMI- certified software integrated with Belgian eHealth systems
- Ethical governance and transparency
- Independent alternative to large internation medical software vendors

Cust. Relationships
- Human support (helpdesk, onboarding)
- Training resources
- Long-term retention
- Community & cooperative governance
- Referral discounts

Channels
Delivery
- Support team
- Application web
- Team viewer

Communication
- Website & digital
- Professional events & demos
- Word-of-mouth (cooperative)
- INAMI, federations ecosystem
- Direct sales contact

Customer Segments
- General practitioners – solo practices
- Medical houses
- Out-of-hours Medical Centers
- Paramedical professionals
- Academia

Cost Structure
- Salaries (dev, support, sales)
- Software dev & maintenance
- Infrastructure (servers, security)
- Marketing & events
- Compliance & certifications

Social:

Energy consumption of IT resources

Revenue Streams
- Annual subscriptions (Light/Full)
- Advanced modules & services
- Onboarding, migration, custom dev
- Cooperative shares

Social:
- Free Medispring lowers the entry barrier to digital transformation
- More time for patient, enhanced patient care
- Strong protection of patient data

BMC

Digital billing becomes mandatory for doctors

Context

economic, legal, environmental, social...
